## DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

### *Drawings*

The drawings are objected to because:

In Fig. 1A, circuit block 31 should be relabeled as --Memory Controller--. In Fig. 1B, circuit block 31 should be relabeled as --Memory Controller Chip--, and circuit block 40 should be relabeled as --Interface Circuit--. In Fig. 2, circuit block 31 should be relabeled as --Memory Controller--. In Fig. 3A, circuit block 233 should be relabeled as --Address Decoder--, and circuit blocks 211 and 213 should be relabeled as --Memory Sector--. In Fig. 3B, signal line 235 should be relabeled as --From Address Decoder--. In Fig. 6, next to reference numeral 31, the legend "Controller" should be relabeled as --Memory Controller--, and circuit block 515 should be relabeled as --REC & S/P--. In Fig. 7, next to reference numeral 31, the legend "Controller" should be relabeled as --Memory Controller--. In Fig. 12, circuit block 1081 should be relabeled as --Row Decoder--, and circuit block 1119 should be relabeled as --Erase Decoder--. In Fig. 17A, circuit blocks 1417 and 1415 should be relabeled as --Erase Decoder-- and --Program Decoder--, respectively, and circuit block 1111 should be relabeled as --Internal Address Bus--. And in Fig. 17B, the outputs of circuit block 1480 should be relabeled as --Read Data Bit 1-- to --Read Data Bit L--, respectively.

In the Amendment of October 25, 2006 (page 23, 2<sup>nd</sup> paragraph), Applicant alleges that a number of objections to the drawings are believed to be in error. Under 37 CFR 1.81(a)-(d),

Art Unit: 2824

Applicant's allegations are deemed not to be persuasive because the above clarifications in the drawings are necessary for a clear understanding of the invention, and not to obscure it.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

The disclosure is objected to because of the following informalities:

At page 6, line 17, "Fig. 2A" should be changed to --Fig. 3A-- (note that there is no Fig. 2A" in the application). At page 9, line 13, "circuit 23" should be changed to --circuit 57--.

Appropriate correction is required.

***Double Patenting***

Claims 63-91 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 19-24, 26-27 and 36 of U.S. Patent No. 5,991,517. An obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but an examined application claim is not patentably distinct from the reference claim(s) because the examined claim is either anticipated by, or would have been obvious over, the reference claim(s). See e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985). See Office Action of July 12, 2006, page 4-6.

Applicant indicates that a Terminal Disclaimer is being filed with the present response in said Amendment of Amendment of October 25, 2006 (page 23, 4<sup>th</sup> paragraph). However it is believed that said Terminal Disclaimer has not shown up in the file up-to-date.

***Claim Rejections - 35 USC § 102***

Claims 63-91 are rejected under 35 U.S.C. 102(b) as being anticipated by Koyama et al. (JP Kokai 62-188100 with Applicant's Translation submitted in Information Disclosure Statement filed October 30, 2001, hereafter "Koyama"). See Office Action of July 12, 2006, page 6-8.

Pending an approval of the TC Director as per MPEP § 1003(6), the Applicant has failed to overcome the prior art rejection with explanations as to why his claims are novel over the prior art, as alleged.
